

I hope that you do not implement any proposals to lessen the ITPL.
(Indiana Telephone Privacy Law) The improvement of our household has been over
and above what we expected. We work "odd hours" and
have been awakened MANY times for calls that we were not interested in
nor wanted, before the ITPL was implemented. Now we might get one a
week, the ITPL has really made both my husband and myself feel a lot
better now that we can get some uninterrupted sleep. PLEASE DON'T
LET IT START UP AGAIN.
Thanking you in advance for listening to the public and doing what is
best for us.
Deborah Sleeth
